**KSS ADDS FREEDMAN SEATING AS A NEW CUSTOMER
Safety Leader Expands Bus and Coaches Market Position**

Sterling Heights, MI Dec 22, 2011 – Key Safety Systems (KSS), a leading global supplier of advanced engineered safety products, including inflators, airbags, steering wheels, and seat belts for automotive and non-automotive markets, is pleased to announce the expansion of its seat belt product line in the bus and coach market.

The KSS Greenville, AL factory has commenced production on three point seat belt assemblies including buckles and retractors for Freedman Seating, a leading supplier to the U.S. domestic bus and transportation industry serving the heavy and medium duty passenger seating market.

“This business expansion compliments one of our four strategic pillars, aiming at diversifying our customer base” said Tony Nardone, Vice President Specialty Division. “We sincerely appreciate the opportunity to serve Freedman Seating now and in the future.”

About KSS

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seat belts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified customers worldwide. KSS is headquartered in Sterling Heights, Michigan with a global network of 34 sales, engineering, and manufacturing facilities. The company has 4 main technical centers located in the U.S., Germany, China, and Japan.
