KSS COMMENCES AIRBAG PRODUCTION FROM NEW ROMANIA FACTORY Safety Leader Continues Investment in Best Cost Regions

Arad, Romania September 30, 2011 – Key Safety Systems (KSS), a leading global supplier of advanced engineered safety products, including inflators, airbags, steering wheels, and seat belts for automotive and non-automotive markets, is pleased to announce the first airbag shipment from its all-new plant in Arad, Romania. The factory started producing cushions in 2010 and, after further capability expansion, it is now producing airbags.

The first airbag assembly lines are now fully qualified and producing side airbags for European OEM's. Production capacity is scheduled to increase rapidly to include a full portfolio of driver, passenger, knee and curtain airbags serving more than ten customers.

"The KSS Arad team is proud to be 100% on schedule with our industrialization plan", said Dorel Enache KSS Arad Plant Manager. "We are committed to providing best in class cost, quality and service to our customers. As a major player in the global safety restraints market, KSS appreciates the opportunity to serve our highly valued customers from this state-of-the-art operation."

About KSS

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seat belts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified customers worldwide. KSS is headquartered in Sterling Heights, Michigan with a global network of 34 sales, engineering, and manufacturing facilities. The company has 4 main technical centers located in the U.S., Germany, China, and Japan.
