KSS STARTS CONSTRUCTION OF NEW FACTORY IN CHINA **Expansion investment aligned with new business growth**

Shanghai, China October 31, 2011 – Key Safety Systems (KSS), a leading global supplier of advanced engineered safety products, including inflators, airbags, steering wheels, and seat belts for automotive and non-automotive markets, is pleased to announce that its Joint Venture Partnership YFKSS - Yangfeng Key Safety Systems (Shanghai) began construction of a new manufacturing facility in the Pudong Kangqiao region of Shanghai, China.

The new factory will have over 50,000 square-meters of floor space and will be completed during the second half of 2012. The official groundbreaking ceremony was held at the site on September 19, 2011.

“KSS deeply appreciates the strong relationships we have forged with our customer base, thanks to their confidence in KSS we are growing rapidly and outpacing the global market” said Jason Luo, CEO of Key Safety Systems. “Specifically in China, where YFKSS operates, we expect that our 2012 revenue will be more than 30% higher than in 2011.”

“This latest investment illustrates our continuing and long-standing commitment to the China Market” added Richard Chen, General Manager of YFKSS.

About KSS

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seat belts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified customers worldwide. KSS is headquartered in Sterling Heights, Michigan with a global network of 34 sales, engineering, and manufacturing facilities. The company has 4 main technical centers located in the U.S., Germany, China, and Japan.
