KSS-ABHISHEK RECEIVES MARUTI SUZUKI SUPPLIER AWARD

New Delhi, India (July 28, 2009) – KSS-Abhishek Safety Systems Pvt., Ltd. (KSS-Abhishek), a joint venture between Key Safety Systems Inc. (KSS) and Abhishek Auto Industries Ltd (AAIL) to engineer and manufacture advanced safety products for the global automotive market, received the 2008-2009 Maruti-Suzuki Vendor Performance Award. This award was presented to Dhiraj D. Gupta, Director of KSS-Abhishek, by Mr. S Nakanishi, managing director, Maruti Suzuki, India's largest passenger car manufacturer.

This award recognizes the key contributions made by KSS-Abhishek to the overall quality and performance for seatbelts supplied to several vehicles including the Alto and Swift.

“Being recognized by Maruti-Suzuki with their Vendor Performance Award is a great achievement for KSS-Abhishek,” said Dhiraj D. Gupta, Director of KSS-Abhishek. “Furthermore, it strengthens our position as an industry leader as we move forward to implement advanced technologies into production and position KSS-Abhishek to win future global businesses.”

Jason Luo, KSS President and CEO said, “It is a great honor for KSS-Abhishek to be recognized with such an important award from one of our major customers. Receiving this award acknowledges the hard work between KSS and Abhishek and we are grateful for the opportunity to continue providing world-class, life-saving products not only in India but also globally in the future.”

KSS-Abhishek strategy calls for it to leverage low cost manufacturing opportunities in India to benefit OEM and Tier 1 customers regionally and globally.

About KSS-Abhishek

KSS-Abhishek is a 50-50 percent joint venture between KSS and Abhishek Auto Industries Ltd. (AAIL), formed in 2007 to provide safety critical products such as inflators, airbags, seatbelts and steering wheels. The company includes a 140,000- sq. ft. state-of-the-art manufacturing facility and technical center in Manesar, Haryana that is tightly connected with the KSS global technology centers in Detroit, Frankfurt, Tokyo and Shanghai working in concert to execute global programs, together.

About KSS

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seatbelts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified worldwide customers. KSS is headquartered in Sterling Heights, Michigan with a global network of 34 sales, engineering, and manufacturing facilities generating approximately \$1 billion in sales. The company has four main technical centers located in the U.S., Germany, China, and Japan.
