KSS RECEIVES TOYOTA SUPPLIER AWARD **Recognized for Superior Cost Management**

BRUSSELS - March 30, 2010 – Key Safety Systems (KSS), a leading global supplier of advanced engineered safety products, including inflators, airbags, steering wheels, and seatbelts for automotive and non-automotive markets has been recognized by Toyota Motors Europe NV/SA with the carmaker’s prestigious Supplier Achievement Award in Cost Management. The award was presented at Toyota’s Annual Business Meeting held in Brussels, Belgium on March 11, 2010.

Jason Luo, KSS President and CEO said, “We are honored and pleased to receive this distinction from Toyota. The KSS business strategy is based on four pillars and one of them is cost. Providing best in class products and technology at the lowest cost is fundamental to our growth and success. We truly appreciate the opportunity to serve Toyota now and in the future”.

About KSS

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seatbelts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified customers worldwide. KSS is headquartered in Sterling Heights, Michigan, with a global network of 34 sales, engineering, and manufacturing facilities generating approximately \$1 billion in sales. The company has four main technical centers located in the U.S., Germany, China, and Japan.
